

DALYs averted per 100,000 person-years due to
vitamin A fortification in oil

(***** Indicates location-specific coverage data confidence score)

DALYs averted due to vitamin A fortification in oil

(***** Indicates location-specific coverage data confidence score)

Population impact fraction of vitamin A fortification in oil
on DALYs as a proportion of vitamin A deficiency attributable DALYs

(***** Indicates location-specific coverage data confidence score)

DALYs averted per 100,000 person-years due to vitamin A fortification in wheat flour

(***** Indicates location-specific coverage data confidence score)

DALYs averted due to vitamin A fortication in wheat flour

(***** Indicates location-specific coverage data confidence score)

Population impact fraction of vitamin A fortification in wheat flour
on DALYs as a proportion of vitamin A deficiency attributable DALYs

(***** Indicates location-specific coverage data confidence score)

DALYs averted per 100,000 person-years due to
vitamin A fortification in maize flour

(***** Indicates location-specific coverage data confidence score)

DALYs averted due to vitamin A fortification in maize flour

(***** Indicates location-specific coverage data confidence score)

Population impact fraction of vitamin A fortification in maize flour
on DALYs as a proportion of vitamin A deficiency attributable DALYs

(***** Indicates location-specific coverage data confidence score)

DALYs averted per 100,000 person-years due to zinc fortification in wheat flour

(***** Indicates location-specific coverage data confidence score)

DALYs averted due to zinc fortication in wheat flour

(***** Indicates location-specific coverage data confidence score)

Population impact fraction of zinc fortication in wheat flour on DALYs as a proportion of zinc deficiency attributable DALYs

(***** Indicates location-specific coverage data confidence score)

DALYs averted per 100,000 person-years due to
zinc fortification in maize flour

(***** Indicates location-specific coverage data confidence score)

DALYs averted due to zinc fortification in maize flour

(***** Indicates location-specific coverage data confidence score)

Population impact fraction of zinc fortication in maize flour
on DALYs as a proportion of zinc deficiency attributable DALYs
(***** Indicates location-specific coverage data confidence score)

DALYs averted per 100,000 person-years due to iron fortification in wheat flour

(***** Indicates location-specific coverage data confidence score)

DALYs averted due to iron fortification in wheat flour

(***** Indicates location-specific coverage data confidence score)

Population impact fraction of iron fortication in wheat flour on DALYs as a proportion of iron deficiency attributable DALYs

(***** Indicates location-specific coverage data confidence score)

DALYs averted per 100,000 person-years due to iron fortification in maize flour

(***** Indicates location-specific coverage data confidence score)

DALYs averted due to iron fortication in maize flour

(***** Indicates location-specific coverage data confidence score)

Population impact fraction of iron fortication in maize flour
on DALYs as a proportion of iron deficiency attributable DALYs
(***** Indicates location-specific coverage data confidence score)

DALYs averted per 100,000 person-years due to folic acid fortification in wheat flour

(***** Indicates location-specific coverage data confidence score)

DALYs averted due to folic acid fortification in wheat flour

(***** Indicates location-specific coverage data confidence score)

Population impact fraction of folic acid fortification in wheat flour
on DALYs as a proportion of folic acid deficiency attributable DALYs

(***** Indicates location-specific coverage data confidence score)

DALYs averted per 100,000 person-years due to folic acid fortification in maize flour

(***** Indicates location-specific coverage data confidence score)

DALYs averted due to folic acid fortification in maize flour

(***** Indicates location-specific coverage data confidence score)

Population impact fraction of folic acid fortification in maize flour on DALYs as a proportion of folic acid deficiency attributable DALYs

(***** Indicates location-specific coverage data confidence score)
