

DALYs averted per 100,000 person-years due to vitamin A fortification in oil

DALYs averted due to vitamin A fortification in oil

Population impact fraction of vitamin A fortification in oil on DALYs as a proportion of vitamin A deficiency attributable DALYs

DALYs averted per 100,000 person-years due to zinc fortification in wheat flour

DALYs averted due to zinc fortification in wheat flour

Population impact fraction of zinc fortication in wheat flour
on DALYs as a proportion of zinc deficiency attributable DALYs

DALYs averted per 100,000 person-years due to
zinc fortification in maize flour

DALYs averted due to zinc fortication in maize flour

Population impact fraction of zinc fortication in maize flour
on DALYs as a proportion of zinc deficiency attributable DALYs

DALYs averted per 100,000 person-years due to iron fortification in wheat flour

DALYs averted due to iron fortification in wheat flour

Population impact fraction of iron fortication in wheat flour
on DALYs as a proportion of iron deficiency attributable DALYs

DALYs averted per 100,000 person-years due to iron fortification in maize flour

DALYs averted due to iron fortification in maize flour

Population impact fraction of iron fortication in maize flour
on DALYs as a proportion of iron deficiency attributable DALYs
